**Re:** 2019-20 Annual Investment Earnings Allocation, SWIFT and SMIF

**Attachment:** **A - Earnings Distribution**

---

Starting with the 2018-19 fiscal year, investment earnings managed centrally were allocated for the full year during the first quarter of each year. In 2019-20 the allocation totals \$84 million; \$79 million in SWIFT earnings and \$5 million in SMIF earnings, net of investment and cash management overhead (4%) and actual banking charges by campus. These amounts reflect last year's total earnings, less an amount now earned as a part of the Total Return Portfolio to be used for capital programs and allocated separately.

The campus earnings distribution is based on past year General Fund allocations, total revenue collection in all funds participating in the SWIFT pool, and actual equity at year end. Campuses will distribute earnings to each participating fund on the campus. The PeopleSoft Interest Distribution Allocation (IDA) module can be used for this process, or a campus can change the process so long as all participating funds receive an earnings allocation equivalent to their share of the total campus allocation.
