1. Service Provider Relationship. The Service Provider, in the performance of this Agreement, is an independent contractor and is not an employee, agent, or officer of the Trustees.
2. Payments. Payments under this Agreement shall be made in arrears of work increment completed to the satisfaction of the Trustees and upon submission of an invoice in CSU invoice format. If not otherwise specified payments for services rendered will be processed monthly upon presentation of invoice.
3. Services. Trustees may issue a written order with respect to the services to be performed under this Agreement at any time before the completion of the services. Trustees shall pay Service Provider an amount for such services as provided in this Agreement, or if not so provided, Trustees shall pay Service Provider a reasonable amount, which shall be agreed upon by the parties.
4. Service Provider shall not utilize any information, not a matter of public record, which is received by reason of this Agreement, for pecuniary gain not contemplated by the terms of this Agreement, regardless of whether Service Provider is or is not under contract at the time such gain is realized (Education Code Section 89006).
5. Ownership. The report, survey, or other product developed by Service Provider pursuant to this Agreement is the property of Trustees and shall not be disseminated to others by Service Provider unless authorized by Trustees.
6. Termination for Convenience. Trustees may terminate this Agreement upon a three (3) business-day advance written notice to Service Provider. In the event of such termination, the Service Provider shall be paid only for the work satisfactorily completed.
7. Termination for Cause. Trustees may terminate this Agreement for cause should Service Provider fail to perform as herein provided. In the event of such termination, Trustees shall be relieved of the obligation to make any payment to the Service Provider and Trustees may proceed by other means with the work in any manner the Trustees deem proper.
8. Indemnification.
The Indemnification subsection below, next to the checked box, applies to this agreement, while the subsection next to the unchecked box does not apply to this agreement.
 - a. Provisions of item 8a shall apply if the agreement is with a Service Provider that does **not** qualify under the provisions of California Civil Code section 2782.8. The Service Provider agrees to hold harmless, defend, and indemnify the State of California, the Trustees of the California State University, the University, and the officers, employees representatives, and agents of each of them from any and all claims, damages, losses, causes of action and demands, and all costs and expenses incurred in connection therewith, including, but not limited to, attorneys' fees and costs resulting from or in any manner arising out of or in connection with any negligent act or omission or willful misconduct on the part of the Service Provider, its officers, agents, and employees, in the performance of this Agreement. This provision shall survive the expiration or termination of this Agreement.
 - b. Provisions of item 8b shall apply if the agreement is with a Service Provider that does qualify under the provisions of California Civil Code section 2782.8 and the scope of work is for design professional services. The Service Provider agrees to hold harmless, defend, and indemnify the State of California, the Trustees of the California State University, the University, and the officers, employees

representatives, and agents of each of them from any and all claims, damages, losses, causes of action and demands, and all costs and expenses incurred in connection therewith, including, but not limited to, attorneys' fees and costs to the extent arising out of, pertaining to, or relating to the negligence, recklessness, or willful misconduct on the part of the Service Provider, its officers, agents, and employees, in the performance of this Agreement. In no event shall the cost to defend charged to the Service Provider exceed the Service Provider's proportionate percentage of fault. However, notwithstanding the previous sentence, in the event one or more defendants is unable to pay its share of defense costs due to bankruptcy or dissolution of the business, the Service Provider shall meet and confer with other parties regarding unpaid defense costs. Service Provider's liability is not limited to recoverable insurance. This provision shall survive the expiration or termination of this Agreement.

The provisions of section 8b pertaining to the duty and cost to defend shall not apply to either of the following:

- 1) Any contract for design professional services per the provisions of California Civil Code section 2782.8, or amendment thereto, where a project-specific general liability policy insures all project participants for general liability exposures on a primary basis and also covers all design professionals for their legal liability arising out of their professional services on a primary basis.
 - 2) A design professional per the provisions of California Civil Code Section 2782.8, that provides design professional service and is party to a written design-build joint venture agreement and not the primary holder of the Trustees and Design-Builder contract.
9. Insurance Provisions. The Service Provider shall not commence work until the Trustees have received evidence of the insurance required in this section and approved it.
- a. Service Provider shall obtain the following policies and coverage. The insurance furnished by the Service Provider under this section shall provide coverage in amounts not less than the following, unless a different amount is stated in Exhibit A, Scope of Work Description:
 - 1) Comprehensive or Commercial Form General Liability Insurance:

 - 4) Professional Liability Insurance:
Professional liability (errors and omissions) insurance on an occurrence basis is preferred,

covering work done or to be done by or on behalf of the Service Provider and providing insurance for professional liability in the amount of \$1,000,000 each occurrence. The Service Provider shall obtain and maintain professional liability insurance on a claims-made basis for no less than \$1,000,000 each claim and

\$2,000,000 annual aggregate, and certification of coverage shall be submitted to the Trustees upon signing of this Agreement. If the total contract amount exceeds \$1,000,000 the Service Provider shall renew and keep such insurance in effect for at least ten (10) years after the recordation of the notice of completion.

For any of the insurance described in the paragraphs above, the amount of limits can be satisfied by a combination of primary and excess or umbrella insurance.

- b. Insurers shall be authorized in the State of California to transact insurance and shall hold a current A.M. Best's rating of no less than **A: VII** or alternatively a carrier acceptable to the Trustees.

Verification of coverage shall be provided as follows:

Oral representations, understandings, or writings not expressly incorporated in the Agreement are void. Unless identified within Exhibit A, Scope of Work, under a separate sub-heading entitled 'Modifications to Agreement', it is the intent of the Trustees to use the standard published form of this Agreement and Rider A without modification. The Agreement and Rider A shall not be modified without review and concurrence by CSU Office of General Counsel.
 21. Offshoring of CSU Contract Work. Service Provider warrants it certified under penalty of perjury in its bid for this Agreement that the Agreement, and any subcontract performed under the Agreement, will be performed solely with workers within the United States; and if this Agreement, and any subcontract performed under this Agreement, will not be performed solely with workers within the United States, Service Provider described in its bid any parts of the work to be performed by workers outside of the United States. Further, Service Provider warrants no work will be performed under the Agreement with workers outside the United States, except as described in Service Provider's bid. If Service Provider or its sub-supplier performs the Agreement with workers outside the United States during the life of the Agreement, and Service Provider did not describe such work in its bid, Service Provider acknowledges and agrees that:

- a. CSU may terminate the Agreement without further obligation for noncompliance, and
 - b. Service Provider will forfeit to CSU the amount CSU paid for the percentage of work that was performed with workers outside the United States and not described in Service Provider's bid.
22. **Limitation of Duties and Services.** The parties acknowledge and agree that the Service Provider's duties and services under this Agreement shall not include engaging or advising on public contracting on behalf of the CSU. Specifically, Service Provider's duties and services shall not include preparing or assisting the Trustees with any portion of the Trustees' preparation of a request for proposals, request for qualifications, or any other solicitation regarding a subsequent or additional contract with the Trustees for a project. The Trustees entering into this Agreement shall at all times retain responsibility for public contracting, including with respect to any subsequent phase of any project. Service Provider's participation in the planning, discussions, or drawing of project plans or specifications for a project shall be limited to conceptual, preliminary, or initial plans or specifications. Service Provider shall cooperate with the Trustees to ensure that all bidders for a subsequent contract on any subsequent phase of this project have access to the same information, including all conceptual, preliminary, or initial plans or specifications prepared by Service Provider pursuant to this Agreement.

Exhibit ‘A’- Scope of Work Glumac, Inc.

1. Capability of Staff:

Mechanical and Electrical Systems Peer Reviews (MSR-ESR) under this agreement may be performed by internal staff but shall be coordinated and reviewed by the respective appointed Mechanical Review Board member prior to issuance of any review or correspondence.

2. Authorization of Work:

- A. Only the trustees’ representatives may authorize work under this Agreement. Work shall typically be coordinated through an individual campus staff project manager or Capital Planning, Design and Construction (CPDC) at the CSU Office of the Chancellor.
- B. MSR and ESR fees are pre-established, based on construction costs of the project being reviewed. If a review is terminated due to cancellation of the project during design, payment will be made for work completed.
- C. Trustees do not guarantee a minimum assignment of work to the Service Provider under this Agreement. Work assignments will be made at the discretion of the campus.
- D. The Service Provider shall seek to avoid conflicts of interest and the appearance of conflicts of interest by not accepting assignments where there is current contractual relationship between the Service Provider and the engineering firm whose work is being reviewed.
- E. Work assignments under this Agreement will be authorized by a Service Order and Authorization to Proceed (Exhibit B).
- F. Service Orders and Authorizations to Proceed may be issued under this Agreement during the Agreement term. Work authorized within the term of this Agreement may be conducted and completed after the expiration of the contract term of this Agreement unless the Agreement is terminated prior to the expiration of its term in writing by the trustees.
- G. The term of the “Service Order and Authorization to Proceed” shall begin on the date indicated on the Authorization and conclude with the completion of the project or its termination.

3. Mechanical Systems Review (MSR):

The MSR is a required review for CSU major capital projects. The ESR review is recommended, but optional and elective by the campus.

- A. For each project submitted and accepted for review, the Service Provider shall perform a Mechanical and/or Electrical Systems Review (MSR-ESR) of the building(s) or project.
- B. The primary purpose of the mechanical and electrical systems peer review is to offer a knowledgeable professional ‘second opinion’ and strategic insights on the functionality and efficacy of the project’s mechanical systems. Although code compliance comments may be presented as a part of this review, the review is not intended as a substitute for an independent code compliance check that the campus will typically be conducting separately to this work. While the peer review process supports the project’s design development, the project architect/engineer of record retains full responsibility for the design documents including their completeness and function.
- C. The Service Provider may suggest potential design options, analysis perspectives, and relay CSU Systemwide experience in materials performance considerations that the design team can build upon in the development of the project.
- D. The Service Provider may provide recommendations of possible methods for the resolution of technical issues encountered in the design and construction (the responsibility for implementing these suggestions rests completely with the Architect/Engineer of record).
- E. The Service Provider shall provide MSR-ESR during each design phase (Schematic, Preliminary, and Construction Documents). Develop review comments addressing the specific project. Categorize each comment into one of three tiers:
 - (1) Required: Must be resolved as part of the back-check process for project to move into next phase.
 - (2) Recommended: Review response must provide a defensible explanation including break-even point if cost is the primary determinant for a recommended comment not being incorporated.

- (3) Advisory: General recommendation that needs to be acknowledged by campus but is elective to be incorporated.

 - F. If response resolution for Required or Recommended level comments cannot be reached at the campus level (differing professional opinions are perfectly reasonable), bring such issues to the attention of CPDC. CPDC will seek to achieve a broader secondary MRB Board consensus as needed and then CPDC will issue a timely resolution determination on the respective issue(s).
 - G. Provide recommended corrections in the form of design review comments in Word (readable) format.
 - H. For each review send copies to the campus project manager, design team, and to CPDC.
 - I. During the construction phase of a project, the Service Provider shall be available as a part of this work as a resource to the trustees for review and assessment of technical issues that may be encountered.
4. MSR-ESR of Major Capital Design-Bid-Build and Construction Manager at Risk Projects:
- A. During the Schematic Design Phase, the Service Provider shall:
 - (1) Participate in at least one meeting with campus personnel and the project architect/engineer of record at the campus. Become familiar with project scope, project goals, physical constraints, established budget, and campus design guidelines. Identify critical systems and equipment requiring seismic certification and bracing, examine the available information on the condition of the campus infrastructure and site utilities and point for interconnection, condition and capacity of building(s) systems, review the engineering concepts employed to achieve energy efficiency criteria, and discuss basis of design concepts and potential alternatives with the project team. When providing an ESR, become familiar with project scope, project goals, physical constraints and established budget, campus design guidelines, identify critical systems and equipment requiring seismic certification and bracing, review the available information on the condition of the campus electrical power and IT infrastructure and interconnection requirements, building(s) electrical and IT systems, discuss capacity constraints, review the engineering concepts employed to achieve energy efficiency criteria, lighting and energy controls, emergency power and life safety, and discuss basis of design concepts and potential alternatives with the project team.
 - (2) Approximately 75% through Schematic Design phase, in anticipation of a CPDC project review, provide a letter to the campus stating the MSR-ESR reviewer concurs (or not) with the proposed design approach of the mechanical systems.
 - (3) Continuing with peer review and involvement through the completion of the Schematic Design Phase.
 - (a) Review submittal documents including the plans and outline specifications, basis of design report, schematic level construction cost estimate and life cycle cost analysis of various systems analyzed and the proposed system and identify if submittal is materially complete; and
 - (b) Develop review comments taking into account the building, building site, and local environmental conditions; and
 - (c) Focus on confirming fundamental design assumptions and validating concepts, systems, and integration. The review at this phase is the most 'strategic' and the most critical.
 - B. During the Preliminary Design Phase:
 - (1) Review project plans, outline specifications, construction cost estimate, and the basis of design report.
 - (2) Focus on confirming concepts, systems, and assumptions. The review at this phase shall seek to confirm that the implementation of the 'approved' schematic documents is being appropriately developed and resolved. Assess if the project is 'on target' to provide a well-functioning, energy efficient facility within the established budget.
 - C. During the Construction Document Phase:
 - (1) Review updates to the basis of design report, project specifications and construction cost estimate to confirm that the design is consistent with the design approved from the Preliminary Design phase.

- (2) Review the State of California Title 24 Energy Efficiency performance model to confirm the inputs match the Construction Documents. Confirm that project specifications include requirements of the State of California Title 24 Energy Efficiency Standards Acceptance Certificates.
- (3) Review the ninety-five percent (95%) plans including mechanical, plumbing, controls (including sequence of operations), and building automation system. The ESR shall review the electrical plans including normal power, emergency power, lighting and lighting controls, plug load controls, IT service, metering and electrical systems sequence of operations, and building automation system interface.
- (4) Confirm that the construction documents submitted for review include complete equipment schedules, energy compliance forms, floor plans, flow diagrams, sections and details. The ESR shall confirm that the construction documents submitted includes complete power system studies including short circuit, coordination and arc flash hazard, completed load schedules; energy compliance forms, power and lighting plans, single line diagrams, sections and details. The Service Provider shall inform the campus project manager if the submittal is materially incomplete.
- (5) Provide copies of Construction Document reviews to the campus-assigned plan check review firm separately providing review work on the project. This will be reciprocal to the Service Provider as well so that initial plan checks and MSR-ESR comments are shared and considered in the development in each respective review. It is not necessary to incorporate these plan check comments or to delay the MSR-ESR peer review pending the plan check back-check resolution. It is necessary to secure the plan check initial review and consider it prior to the Construction Document phase MSR-ESR review report issuance. Coordinate with the campus for plan review firm contact information.

5. MSR-ESR of Design-Build Projects:

MSR-ESR of Design-Build Projects shall generally follow the procedures for Design-Bid-Build projects set forth above, but shall modify the review emphasis to reflect differences in delivery methods (i.e., limited review of costs in later phases, and more focus on confirming that quality/functionality is not being diminished from that agreed to at the end of Schematic Design phase).

6. Back-Check Review:

- A. Provide back-check review(s) of resubmitted plans during the course of the project. This back-check shall include an assessment of whether comments made in the prior reviews have been addressed and identify any prior comments that have not been satisfactorily addressed and their impact on the project if constructed as presented.
- B. Issue copies of back-check comments to campus, design team and CPDC.
- C. At the completion of the design review provide a letter to the campus with an electronic copy to the CPDC that MSR/ESR comments have been resolved to the satisfaction of the reviewing board member.

7. Project Deliverables and Distribution:

- A. MSR/ESR peer review reports at Schematic, Preliminary and Construction Document phases.
- B. Issue copies to campus, project design team, and CPDC for each review and back-check.
- C. Issue a copy of the Construction Document peer review and back checks to the campus assigned plan check review firm separately providing services on this project.
- D. Distribute copies of reports and back-checks via email.
- E. Marked up plan sets are not required or desired.
- F. Issue hard copy letters of concurrence to the campus at the completion of each review.
- G. Provide copies of reports and letters to CPDC via email.
- H. Provide a copy of the final letter of concurrence to the plan check review firm via email.

8. Coordination with Mechanical Review Board:

MSR-ESR Reviewer shall periodically report to the Mechanical Review Board (MRB) on review issues and concerns that may have CSU Systemwide implications and advise on how the MSR and ESR review process can be improved and/or streamlined in the future.

9. Extra Services:

- A. Extra Services Authorization shall be at the discretion of the trustees and shall not include work that is incidental to an MSR-ESR. Extra Services are not anticipated to be needed in the typical course of providing these reviews. The following would be examples of potential Extra Service work:
 - (1) Pre-design project studies.
 - (2) Extended participation in campus design development beyond peer review, such as additional attendance at project design meetings or project site visits beyond the initial campus kick-off participation that is a part of the base MSR-ESR scope.
 - (3) Substantial stop/restart or re-characterization of original peer review scope.
 - B. Extra Services require pre-authorization in writing by the project manager.
10. Reimbursable Expenses:
- A. The fee for a Service Provider’s MSR-ESR is inclusive of expenses incidental to this work. Reimbursable expenses are not anticipated in the typical course of providing a MSR-ESR.
 - B. The following are not reimbursable expenses:
 - (1) Travel expenses incurred for one (1) trip to the campus during the schematic phase is a part of this scope.
 - (2) Shipping charges, phone calls, faxes, consumables, etc. occurring in the course of providing the MSR-ESR services under this Agreement.
 - C. Additional travel when requested by the campus may be reimbursable as part of an Extra Service.
11. Project Administration:

The master agreement and scope for this project is managed centrally by the Office of the Chancellor. Individual campuses are authorized to secure (and pay for) services under this agreement. All correspondence regarding design review activities and processes shall be sent to Ebi Saberi, University Architect with a copy to Lindsey Rowell, Chief of Energy, Sustainability, and Transportation.
